NEW YORK, March 3 .- A New Orleans letter All the dwellings in Pensacola except Mallory's and Major Chase's were burned. The soldiers seemed to think that the entire evacuation of the place to the enemy was intended, and many swore they would burn the town. On Thursday noon fires made their appearance, and for three days and nights the place was filled with smoke and flame. The officers tried to stop the work of de struction, but seemed to have no influence over the men; even men placed to guard property set it on fire. Colonel Dyer, Commandant of the Post, was almost distracted, and gave orders to shoot persons caught setting the fires, but no one \$20,000 To-

MURFREESBORO, April 3 .- It is rumored that a number of bridges are being constructed across the Tennesse River above Florence to connect the Rebel armies of Tennessee and Mississippi. Gen. Rosecrans has approved the sentence of deserters in Wood and Palmer's divisions. Col. Lowe, at Fort Donelson, telegraphs that the enemy are apparently in force.

WASHINGTON, April 3 .- A special to the N. Y. Evening Post says: Mr. Casev, of Kentucky, has been appointed Government Agent (under the Confiscation Act)

at Memphis, with a roving commission. McClellan's official report of the seven days' battle on the Peninsula and his falling back to Berkley, although dated 15th July last, is to day for the first time published. He looks to the judgment of history and the future to pronounce correctly upon the movements of the army. He is confident that no army ever fought more repeatedly, heroically and successfully against such great odds; that no men of any race ever displayed greater discipline, endurance, patience and

cheerfulness, under such hardships. Rhode Island. Maine and Iowa are the only States as vet which have signified to the Gen eral Land Office their acceptance of grants of land to the several States for the establishment of Agricultural Colleges.
